

BAXI

Baxi Platinum Compact Combi
Baxi Duo-tec Compact Combi
Baxi Megaflo Compact System

Product Launch

August 2023

6th July 2023

Dear Customer,

We are delighted to announce the launch of the **NEW** compact boiler range which is exclusively available to APP Wholesale.

Baxi Platinum Compact Combi - 25, 30, 36kW (Natural Gas)
Baxi Duo-tec Compact Combi - 25, 30, 36kW (Natural Gas)
Baxi Megaflo Compact System - 15, 18, 24kW (Natural Gas)

Building on the well-established and trusted Platinum, Duo-tec and Megaflo boiler ranges we are excited to announce a brand new and improved range of models.

This new range of boilers are compact and lightweight with brass hydraulics, stainless steel heat exchanger, a top central flue and pipes-behind feature facility. They are small enough to fit inside a 290mm deep kitchen cupboard and are all certified to operate on natural gas with a blend of 20% hydrogen.

This exciting new range comes with fully recyclable vertical sleeve packaging, containing no polystyrene, meaning it's more sustainable and easy for the homeowner or installer to recycle.

Generic new boiler range features include:

- **High efficiency heating and hot water** saving money of gas bills
- **Compact cupboard fit** fits inside a 290mm deep kitchen cupboard
- **Lightweight** <30kg for an easier and safer installation
- **Brass hydraulics** trusted and robust
- **Stainless steel heat exchanger** trusted and robust
- **Pipes behind facility within the compact casing** for neater and cupboard fit rear pipework
- **Fully recyclable packaging** sustainable and better for the environment.

In addition the new ranges have the following specific features:

- **10-year parts and labour warranty*** (Platinum Compact only) for complete peace of mind
- **7-year parts and labour warranty*** (Duo-tec and Megaflo Compact only) for peace of mind
- **Easy-Fill Permanent Filling Link** (Platinum only) enabling the user to top up central heating pressures without the need for an engineer visit
- **Rigid Filling Link** (Duo-tec Compact only) for a discreet filling device enabling the users to top up central heating pressures
- **Adey Magnaclean Micro2 System Filter** (Platinum Compact only) protecting the boiler from system magnetite.

The launch of these new compact boiler ranges has been designed to further improve ease of installation, reliability and ease of maintenance of an already established and successful product range in the Platinum, Duo-tec and Megaflo.

The **NEW** Baxi Platinum, Duo-tec and Megaflo Compact ranges will be sold exclusively via APP Wholesale and will be available to pre-order now for delivery early September 2023.

Platinum Compact Combi

Feature	Benefit
Adey Magnaclean Micro 2 System Filter*	Protecting the boiler from system magnetite*
10-year parts and labour warranty*	For complete peace of mind
Outputs, 25, 30 & 36kW	To suit most property sizes
Compact cupboard fit	Can be installed in a 290mm deep cupboard
Pipes behind facility within boiler casing	Save time, space and money by piping behind within the footprint of the appliance
Lightweight	29.5kg lift weight
Easy-Fill 2 Permanent Filling Link	Enables simple homeowner self top-up of central heating pressure preventing engineer call outs
Fully modulating and highly efficient	Boiler intelligently uses the right amount of fuel to meet the set central heating temperatures - saving money on fuel bills
Ease of service	No special tools or replacement seals required for standard service
Front access to all components	Saves time when servicing
Brass hydraulics block	Trusted and robust
100% recyclable vertical sleeve packaging	Sustainable and better for the environment
Built-in drip tray with oversized rainwater hose	Protection against any water ingress through the flue in extreme weather conditions
OpenTherm interface	Compatible with Baxi uSense 2 Smart Room Thermostat
Optional outdoor weather sensor available	Enhances system control and customer comfort
Top central flue	For easy replacement
Extensive flue options up to 20 metres	Allowing greater flexibility of siting and easy replacement
Industry-leading choice of flue lengths, bends and accessories	For versatile siting and easy replacement
Baxi uSense 2 Smart Room Thermostat**	Enabling homeowners to control heating schedules remotely via the My Baxi APP

* Subject to registration and an annual service. Terms and conditions apply. Visit baxi.co.uk/warranty

** Baxi uSense 2 Power Adaptor and Gateway Kit must be purchased to enable compatibility
